

CELLECT ONE Shield HOCL

Frequently Asked Questions

1. What is Collect One® Shield HOCL?

Collect One® Shield HOCL is nature's disinfectant and skincare enhancer. It's eco-friendly, mimics your body's defenses, and is up to 80 times stronger than bleach yet gentle for daily use.

2. How often should a person use Collect One® Shield HOCL?

- Skincare: Spray 2-3 times on the face or affected areas 1-2 times daily. After procedures, use 3-4 times daily to promote healing.
- Wound Care: Spray wounds 2-3 times daily until healed. For burns, spray 2-3 times daily.
- Disinfection: Spray evenly on surfaces and air dry.

3. Why choose Collect One® Shield HOCL?

- Safe & Non-Toxic for skin, pets, and food.
- Highly Effective, killing bacteria and viruses in seconds.
- Eco-Friendly, breaking down into saline.
- Multi-Purpose for skincare, wounds, and surfaces.

4. How does it work?

Collect One® Shield HOCL penetrates and destroys germs while soothing skin and promoting healing.

5. Where can you use it?

- Skincare: Cleanser, toner, or post-procedure.
- Hygiene: Deodorant, eye care, and oral rinse.
- Healthcare: Wound care and sterilization.
- General Use: Surface disinfection and food-safe cleaning.

6. Is it safe?

Yes, it's non-toxic and safe for direct use on skin

Benefits for Wound Care and Cleaning

- **Wound Care:** Promotes faster healing by reducing infection risk and soothing inflammation. Spray directly onto wounds or burns 2-3 times daily.
- **Cleaning & Disinfection:** Kills 99.9% of germs on contact. Spray evenly on surfaces and let air dry for safe, effective disinfection.

How to Use Collect One® Shield HOCL in Skincare

1. **Morning:** Mist as a toner or over makeup for hydration.
2. **Evening:** Use after cleansing to remove impurities.
3. **Post-Procedure:** Spray liberally to soothe and heal.
4. **On-the-Go:** Refresh skin or sanitize hands.
